Client Story: $650K Saved by Reducing EdTech Waste at Providence Public Schools

Overview

In just one year, Providence Public Schools saved over $650,000 with **GoTeacher** by eliminating low-usage software and renegotiating smarter contracts — creating a proven model to cut costs, support teachers, and align technology to student learning.

Key Findings

- Saved **$650,000 annually** — about $30 per student — by cutting unused edtech licenses.
- Reduced digital programs **from 84 to 56**, boosting student and teacher focus.
- Achieved a **10× return** on GoTeacher investment within one year.

The Process that Providence Followed to Save with GoTeacher

Get Started in 30 Minutes or Less

- Providence connected their SIS via SFTP (25 min) and deployed the GoTeacher extension (5 min), giving instant visibility into software usage.

Building The Inventory

- Exported a list of active tools from Clever and tracked down contracts.
- GoTeacher handled all data entry and synced usage data with software costs.

Take Action to Save and Reinvest

- Providence used GoTeacher insights to cancel underperforming contracts and renegotiate others, saving $650k annually.
- Reinvested $150K into programs better aligned with student outcomes at lower costs.

Customer Success Spotlight

Providence Schools

Craig Creller
Chief of School Improvement and Innovation

"GoTeacher has been a game-changer for Providence Public Schools. We have saved over $650,000 by removing ineffective software and freeing up $150,000 to reinvest in tools that are better aligned with student achievement."
