symbaloo

Centralized *digital control* for District IT

Symbaloo gives IT Directors a centralized platform to manage what every student and teacher sees on district devices — while gaining the usage data you need to optimize licenses and demonstrate ROI.

The challenge

- *Teachers email IT for links, logins, and portals — every day*
- *Students access unapproved sites and waste class time*
- *Unused software licenses silently drain your budget at renewal*
- *No visibility into which tools are actually used in classrooms*

ONE DASHBOARD. COMPLETE VISIBILITY. TOTAL CONTROL.

The solution

- **Centralized Control** — Set district-approved digital resources as the homepage on every device. No more students Googling for games or accessing unapproved sites.
- **Usage Analytics** — See which tools teachers and students actually use. Identify unused licenses before renewal and show leadership what's working.
- **Reduced Support Load** — Teachers stop emailing for links and login portals. Students land exactly where they need to be. Your team focuses on strategic work.
- **Controlled Customization** — Department chairs and teachers build their own resource boards while IT maintains full oversight of layout, access, and approved content.

VALUE ACROSS YOUR ENTIRE DISTRICT

How Districts use Symbaloo

- **New Teacher Onboarding**
  One-click tech setup — email, SIS, LMS, internal tools — all organized on a single page. Cuts onboarding time from hours to minutes.
- **Testing & Assessment Prep**
  Deploy test-taking tools district-wide with one click. Track which tools students actually use and which go untouched.
- **License Optimization & Renewal**
  Symbaloo Insights shows real usage data — see exactly which paid tools are being used, by whom, and how often. Stop paying for shelfware.
- **FERPA-Compliant Resource Deployment**
  Push approved, compliant resources to specific grade levels or departments. Maintain audit-ready control over what students can access.
- **Professional Development Tracking**
  Create guided PD paths with Learning Paths. Monitor completion rates and ensure teachers stay current on certifications and required training.
- **Staff & Internal Resource Hub**
  Centralize HR, IT support, communications, security, legal, and general announcements in dedicated staff Webmixes — reducing repetitive questions.

Director of Technology
District-wide visibility, Insights dashboards, smart renewal decisions

EdTech Specialist
Centralized tool hub, usage tracking, teacher enablement

Teachers
One-click lesson resources, collaboration, Learning Paths

Librarians
Choiceboards, digital collection sharing, community discovery

- **Webspaces & Webmixes**
  Visual dashboards organizing all digital resources into shareable, clickable tile boards
- **Learning Paths**
  Guided, sequential content tracks for student learning and teacher professional development
- **Single Sign-On & SIS Integration**
  Works with your existing identity provider and student information system
- **Symbaloo Insights**
  Real-time analytics showing tool usage across classrooms, schools, and the entire district
- **Choiceboards**
  Interactive, themed collections for student self-directed exploration and engagement
- **Symbaloo Library**
  Discover and share curated resource boards from educators across the country
